

D-LINK VDSL ROUTER CONFIGURATION

Open the router page by 192.168.1.1

User name : admin password will be on router

The screenshot displays the D-Link ADSL Router configuration interface. The browser address bar shows the URL 192.168.1.1. The page header includes 'Product Page: DSL-224' and 'Firmware Version: AT_1.01'. The D-Link logo is prominently displayed at the top. Below the logo, there is a navigation menu with tabs for 'SETUP', 'ADVANCED', 'MAINTENANCE', 'STATUS', and 'HELP'. The 'SETUP' tab is selected, and the 'INTERNET CONNECTION WIZARD' is the active section. The main content area contains the following text:

SETTING UP YOUR INTERNET

There are two ways to set up your Internet connection. You can use the Web-based Internet Connection Setup Wizard or you can manually configure the connection.

Please make sure you have your ISP's connection settings first if you choose manual setup.

INTERNET CONNECTION WIZARD

You can use this wizard for assistance and quick connection of your new D-Link Router to the Internet. You will be presented with step-by-step instructions in order to get your Internet connection up and running. Click the button below to begin.

Note: Before launching the wizard, please ensure you have correctly followed the steps outlined in the Quick Installation Guide included with the router.

Helpful Hints...

First time users are recommended to run the **Setup Wizard**. Click the **Setup Wizard** button and you will be guided step by step through the process of setting up your DSL connection.

If you consider yourself an advanced user or have configured a router before, click **Setup->Internet Setup** to input all the settings manually.

[More...](#)

At the bottom of the page, there is a 'BROADBAND' section and a copyright notice: 'Copyright © 2005-2015 D-Link Systems, Inc.' The Windows taskbar at the bottom shows the 'Network Connections' icon and the 'ADSL Router - Goog...' window.

Go to setup

Go to internet setup

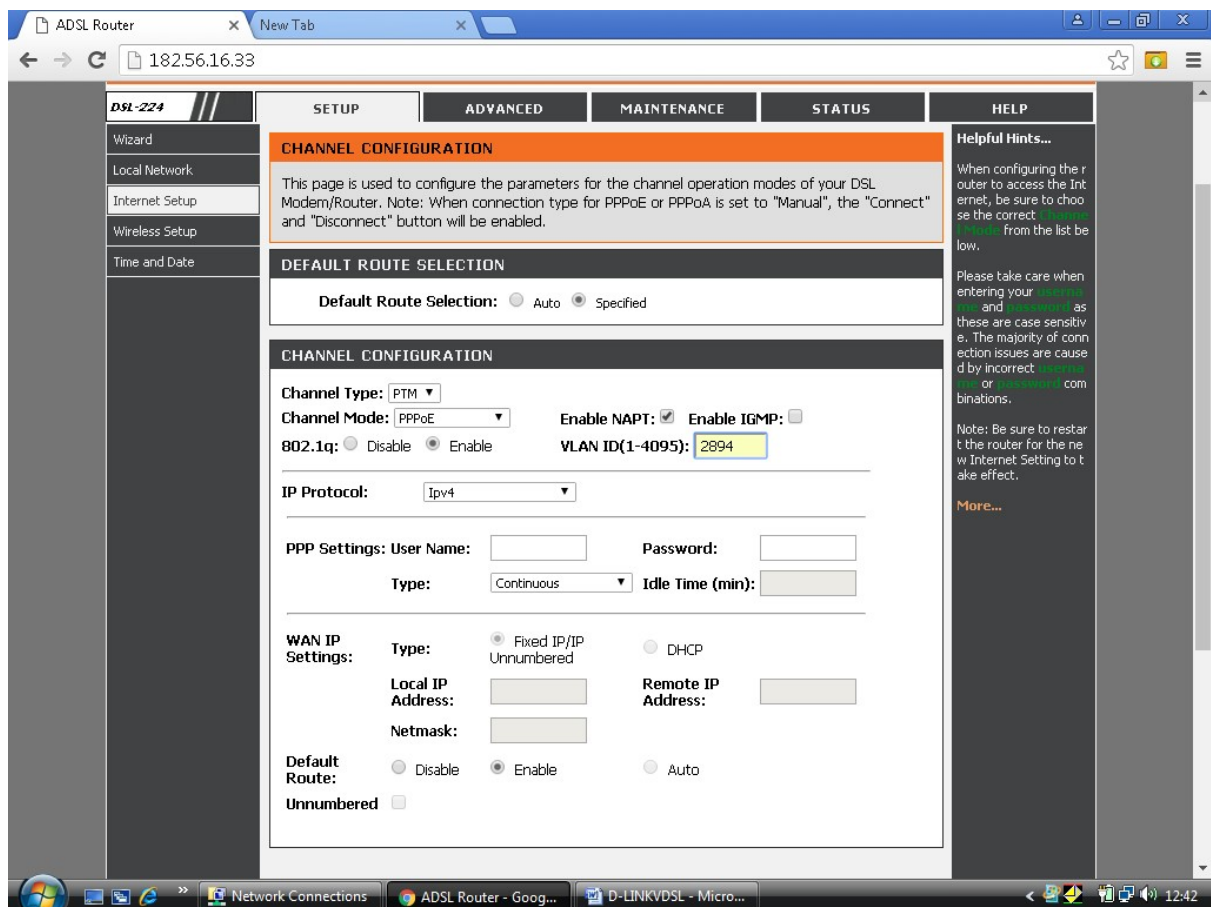

Select Channel type PTM

Select channel mode pppoe
